

LISTENING CENTER RESPONSE SHEETS

Be the teacher they remember!
Help students
Organize their thoughts and
summarize the stories they read.

DIRECTIONS

Listening Response Sheets help students create meaning using diagrams, writing, or pictures. They help students of all ages to organize, clarify or simplify complex information. Listening response sheets can be used for informational texts, narrative texts, comparing stories, or summarizing text.

Response sheets can be used in literacy, or math centers, or as a book. These response sheets are student accountable and for you to see if they really understand the information after the read.

There is a lot to choose from in this resource. They include primary and intermediate lines.
